

Mandir - Care Instructions

Following these instructions keeps the mandir-look perfect and ensures long life

- This mandir is fully 3D-printed using premium heat-resistant polymer material
- Indoor use only
- Keep diya/incense at least 4-6 inches away from the structure
- Never place open flame directly on or inside the mandir
- Gently wipe with a soft dry microfiber cloth
- For deeper cleaning: lightly damp cloth in mild soap water → wipe → dry immediately.
- Never soak or use excess water, chemicals, alcohol or sanitizer
- Avoid prolonged direct sunlight to preserve colour
- Built-in lighting: 220V AC Indian plug - use only with proper earthing
- Do not cover ventilation gaps near light area.
- Keep away from children under 5 years

Made with devotion in Nellore, India.

Tote3D - Bringing Ideas to Life

Thank you for bringing Mandir into your home. May it fill your space with peace and positivity.
